EVERGREEN BARGAINS

FALL 1935 - SPRING 1936

Here is an opportunity to line out some Evergreens that you can begin to sell out of within one to two years and thus not have to wait over the long period necessary when buying the usual commercial grades of Lining Out Stock.

This stock is 5 to 7 years old, two or three times transplanted. It is now beginning to crowd some and must be moved. We lack the space in which to transplant it, therefore, are offering it at Sacrifice Prices. A small percentage will need a little shaping up. They will develop into fine plants just as quickly as they are given sufficient room. A very large percentage are shapely plants, really ready to sell immediately. We recommend, however, that they be sheared quite heavily when planted.

TERMS AND CONDITIONS - In view of the very low prices at which this stock is sold, terms are CASH WITH ORDER or C.O.D., except to those who have an established credit with us, F. O. B. Manchester, Packing Extra. A discount of 10% will be allowed on a total order of 1000 or more plants. This stock will be dug bareroots and puddled. Balled and Burlapped will cost 5¢ to 10¢ per plant extra, depending on size and variety.

We recommend Fall Planting, which will give them a flying start next Spring. This should enable you to begin selling out of them late next summer.
